Raymond Kosciolk  
1900 Lakeview Terrace  
Long Lake, Minnesota 55356

Dear Mr. Kosciolk:

As you are aware, there is a drainage problem adjacent to the street in front of your residence. We had planned on correcting the problem at the time of sanitary sewer construction but conditions are changing and we must do something about the problem now.

We will be removing the inadequate piping and catch basin right away so that drainage can flow without restriction. Once we have determined the extent of the problem, I will meet with you to discuss the long term solution.

We should start removing the undersized piping and catch basin during the week of May 13, 1996.

If you have any questions, please call me at 473-7357.

Sincerely,

John R. Gerhardson  
Public Works Director
